What are Security Screens

Security screens also known as security mesh, are high-strength metal mesh, which are woven by high-strength stainless steel wire mesh, the mesh number is usually 10-14 mesh, and the surface is usually treated by electrostatic spraying. Commonly used materials include SS304 and SS316, which have excellent corrosion resistance.

The thicker wire diameter, smaller mesh and durable material of the anti-theft screen ensure high tensile strength, corrosion resistance and rust resistance, and chemical stability performance. Most importantly, security mesh has a very strong structure that can withstand bullets, knives, scissors, hammers and almost all tools.

Typical Applications

- Antitheft screens
- Commercial & residential window screens
- Door screens
- Decorative screens
- Privacy screens
- Insect screens
- Fly screens
- Mosquito screens
- Casement windows

Why Choose Security Screens from Brilliant Metal Mesh

Our security screens for windows & doors are made of high-strength 304 and 316 stainless steel wire mesh, which have excellent vandal resistance and corrosion resistance.

- Safety protection: Our security screens prevent forced entry, strong impact and sharp objects, rejecting unsafe factors.
- Prevent animal invasion: prevent rodents such as rats and snakes from destroying or invading.
- Invisible and transparent: no barrier, no occlusion, no sense of oppression, and the interior remains bright and natural at all times.
- Easy to open and easy to escape: instead of the traditional fixed fence, family members can quickly escape from the scene in the event of a fire or other crisis.
- Power saving and energy saving: no air blockage is caused, and the indoor breeze blows at any time, reducing unnecessary air conditioning operation.
- Easy to maintain: Dust and oil stains are easy to clean, and after a little care with a vacuum cleaner, absorbent sponge or ordinary brush, it will be as bright as new.
- Resist ultraviolet rays: It can resist ultraviolet rays, so that you can avoid the damage of ultraviolet rays to the skin while enjoying the sun.
- Low-carbon environmental protection: security mesh for windows and doors is completely made of environmentally friendly materials and has no pollution.

Specifications

Specifications of Security Screens for Windows and Doors	
Material	SS304, SS316, SS316L, SS201, Aluminum alloy.
Surface treatment	Powder coated, epoxy coated, PVC coated, etc.
Color	Black, White, Grey, etc.
Weave type	Plain weave.
Mesh number x Wire Diameter	10 x 1.2 mm, 11 x 0.9 mm, 12 x 0.8 mm, 14 x 0.7 mm.
Width	1.5 m, 2 m, 2.4 m, 3 m.
Length	1.5 m, 2 m, 2.4 m, 3 m.
Guarantee	Ten years

Standard Package:

- 5 pieces in one carton box, then 10 carton boxes in one wooden case
- 25/50 pieces per wooden box/pallet with a piece of water proof paper between two pieces of mesh screens.

About **Brilliant Metal Mesh**

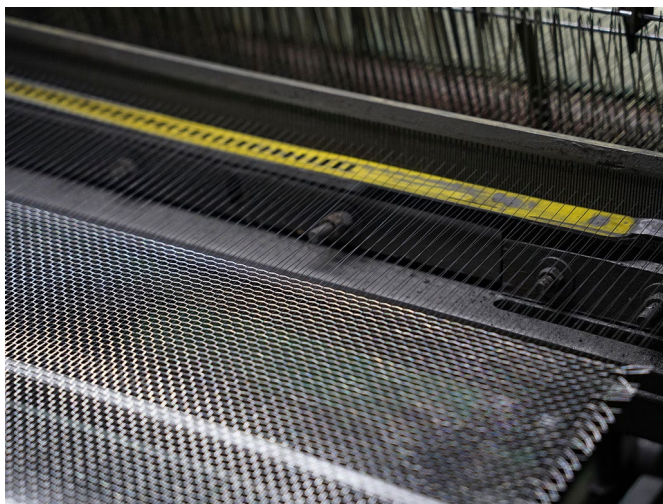

Brilliant Metal Mesh was founded in 2016 in Anping County, Hebei Province, China. We specialize in the production and sales of high-quality woven wire mesh products, including stainless steel wire mesh, architectural mesh, epoxy-coated wire mesh, sintered metal mesh, metal mesh filters, and window security screens. With 3 advanced sintering units, over 100 woven mesh machines, and comprehensive quality inspection equipment, we have grown into one of the leading wire mesh manufacturers in the industry.

Our wire mesh products are manufactured from a wide range of premium materials such as stainless steel, iron, aluminum, copper, brass, nickel alloys, Hastelloy, Monel, and Inconel. These materials offer excellent properties including high strength, hardness, and wear resistance, making them suitable for demanding applications across aerospace, automotive, pharmaceuticals, petroleum, chemical processing, and many other industries. To meet the evolving needs of our global customers, we continuously develop and introduce new mesh products.

At Brilliant Metal Mesh, we are committed not only to superior products but also to complete customer satisfaction. Our professional technical team provides expert support and tailored solutions, while our comprehensive after-sales service ensures timely and effective assistance throughout the entire usage cycle.

Looking ahead, we will remain dedicated to our core philosophy of “quality first, service foremost”, striving to further enhance product performance and service standards, and delivering greater value to customers worldwide.
